

Steering Tool Systems and Accessories

INROCK® Guidance Systems maintains a large inventory of Vector Magnetic steering tool systems and accessories for rental, sales, and long term leases.

We recommend Vector Magnetics steering tool systems in conjunction with Paratrack for all HDD.

INROCK® Guidance Systems wire line spiders offer the drilling contractor insurance against costly wire line shorts down hole. Spiders are available for 2 7/8", 3 1/2", 4 1/2" Internal flush and 6 5/8" of the bore.

Friction Wrenches to protect the steering tool.

Electronic Digital Measurement units with tripods and prisms.

Setting the Standards for Superior Performance
